11th July 2023:- World Population Day

World Population Day is on 11th July and seeks to focus attention on the urgency and importance of population issues, was established by the then-Governing Council of the United Nations Development Programme in 1989, an outgrowth of the interest generated by the Day of Five Billion, which was observed on 11 July 1987.

Children will inherit our world. We wouldn't want them to commit the same mistakes which our generation and our predecessors committed. Therefore, it is imperative to educate them by making them aware about the pitfalls of overpopulation.
